### Skills

**Frontend** (React, Javascript, HTML5, CSS),  
**Backend** (Node.js, Express.js, MongoDB with mongoose),  
**Tools** (Github, Figma, VS Code)

### Projects

#### eHadaya

**Description:** eHadaya is a platform where suppliers, clients, and organizations register themselves to sell **GIFT CARD** and **MERCHANDISE** to customers. Basically, it is a middleware that helps users to upload their products in bulk. That helps customers to find products or gift cards the best of their choice directly from the eHadaya front-end application.

**Project:** eHadaya Team size: 4

**Technology:** JavaScript, React, CSS3, HTML
