Skills

Frontend (React, Javascript, HTML5, CSS),
Backend (Node.js, Express.js, MongoDB with mongoose),
Tools (Github, Figma, VS Code)

Projects

eHadaya
Description: eHadaya is a platform where suppliers, clients, and organizations register themselves to
sell **GIFT CARD** and **MERCHANDISE** to customers. Basically, it is a middleware that helps users to
upload their products in bulk. That helps customers to find products or gift cards the best of their choice
directly from the eHadaya front-end application.

Project: eHadaya Team size: 4
Technology: JavaScript, React, CSS3, HTML
